Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of the extension of time and amendment filed 02/09/03.

Applicant is requested to amend the specification by adding a sentence at the beginning of the specification indicating the priority claim, and status of that case.

The rejection under 35 USC 103 over Kuo et al is hereby withdrawn.

The following are new rejections are cited in view of an updated search:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite in the use of the word "sample". The claim fails to set out the sample size or proportion. Clarification is requested.

Claim Rejections - 35 USC § 102

Art Unit: 1615

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 96/32096 (WO'096).

WO'096 discloses particles used for drug delivery comprising various amino acids such as leucine (see page 9, lines 3-17). The particles may be spray dried, with inlet and outlet temperatures as described at page 19, lines 18-21. Diameter is less than 5.2 μm , with particles of less than 5 μm disclosed for deep lung delivery. Thickness would inherently also be within the claimed parameters in order to achieve this delivery. Further, as in the examples given in the instant application, WO'096 uses spray drying with the same inlet and outlet temperature parameters. Since diameter and size are also within the claimed parameters, bulk density (a function of mass/volume) would also be inherent. The instant claims are anticipated by WO'096.

Claims 10-23, 25, 26, and 29 are objected to as dependent upon rejected base claims.
